

NEVADA
TEACHER CORPS

(GPE = mgh)

TEACHINGENUITY

Nevada Teacher Corps brings talented elementary teachers to the students who need them most.

WHO WE ARE

The Nevada Teacher Corps (NTC) is an ambitious effort to train high-quality elementary teachers for high-need Nevada schools. We believe all kids deserve inspired teaching—particularly those from the state’s traditionally underserved communities. Our teachers are among the best and brightest, and come from diverse backgrounds, ready to meet the diverse needs of Nevada’s students.

WHAT WE DO

We run a rigorous teacher-training program—**putting the highest priority on teachers’ performance**, and their impact in the classroom. We only license teachers who prove they’ve got what it takes to help students thrive.

Simply put, we recruit, train, and support talented teachers to give our kids the great education they deserve. These actions allow us to supply our partner districts with a large pool of high-quality teachers.

HOW WE DO IT

- **Classroom-Centered Training:** Our training is radically simple: focused practice on key skills, knowledge, and mindsets to get new teachers off to a strong start. With intensive summer training and ongoing coaching from experienced teachers that continues throughout the first year in the classroom, NTC Fellows practice, reflect, and improve until they master the craft of great teaching.
- **Certification that Counts:** We hold the highest standards for certification of any program in the country. Upon graduating our program, NTC Fellows are recognized not simply as certified teachers, but as having a proven track record of classroom success.
- **Full Salary and Benefits:** While pursuing licensure, NTC Fellows work full-time at a district or charter school and earn a full teacher’s salary plus comprehensive benefits.

WHO WE WANT

We **recruit talented teacher candidates from around the country** by seeking out recent college graduates and career-changers who have demonstrated potential to become great teachers. Eligible applicants:

- Must have bachelor’s degree by June 1, 2019
- Must be authorized to work in the U.S.
- Must be able to pass an FBI background investigation
- Must not be a certified teacher
- Must meet all testing requirements prior to the start of summer training in June

We’re looking for teachers for the 2019-2020 school year. Visit nevadateacher corps.org to apply.
